

Do you go to the grocery store with your mother? Does it look like this? I don't think so.

These pictures were taken in a food pantry where those can't afford to go to the grocery store can go when they need food. Especially now, during the months of the COVID pandemic, there are many mothers and fathers who need go to a food pantry so they can feed their families for the month.

When we share our dimes, some of them are sent to nine food pantries in our area. The good folks at the food pantry use our dimes to buy groceries so that they can share nutritious food with those who are hungry. Sometimes they include a good snack or dessert as well. 😊

When we share our dimes, we are doing what Christ said long ago, "You, give them something to eat."

Close with a prayer
