

**Do you eat lunch at school? Do you sit at tables in the cafeteria or your desk in your classroom?**

**These students live far away in Malawi, a country in Africa. They are at school and are eating their lunch. But you can see that they don't have tables to sit at. The younger ones are sitting on the floor while the older boys are eating outside standing up.**

**They have received their nutritious lunch from Ministry of Hope, one of the agencies receive some of our dimes. Because they get a good meal while they are school, they can pay attention in class and do better on their work. This will help them as grow older to be able to help care for their families.**

**When we share our dimes, we can help students far away from where we live, get a good meal at school so they can grow healthy and strong.**

Close with prayer....

*We are deeply grateful for your loyal partnership over many years, helping to feed children in Malawi, one of the poorest nations on earth. Your gift goes far to nourish thousands of children of all ages, both physically and spiritually.*
