

**Do you know what hungry people look like?** Would you recognize them if you passed them on the street or sat beside them at school?

Hungry people look very much like us. Their clothes might be more worn and they might look worried, but basically, we look alike.

The main differences between us are what we experience in our lives.

- Most of us live in warm homes in the winter and cool homes in the summer, but there are some people in our community that **don't have homes.**
- Most of our parents have jobs that provide money for our families, but there are some people in our community who **don't have jobs or can't work because they are sick.**
- Most of our parents have enough money to pay for rent and groceries and gas for the car, but there are some people in our community who **don't have enough money to pay for all these things.** They often have to make choices between buying food or paying the rent.
- Most of our families can afford to go to see a doctor when we are sick, but there are some families that **can't afford to go to the doctor.**

**Fortunately there are places in our community where people who need help can go for help.**

**Some go to a soup kitchen and have a good meal.**

**Some go to a food pantry and get groceries for the family.**

**Some older people get a home delivered meal when they can no longer cook for themselves.**

**OUR DIMES HELP PROVIDE FOOD FOR THOSE WHO ARE HUNGRY.**
